

Home Maintenance Program – Scope of Service

This program will be available to all homeowners. It will provide information on programs and services available for emergency assistance, energy savings, upkeep, and saving money. The class will be a 2-4 hour class. It will include speakers from different specialties giving their tips on home maintenance. The class will put proactive and preventive maintenance to work for clients to lower the total cost of home ownership. The class will also provide tips on making sure the repair providers are qualified and preventing scammers. The clients will be provided with a yearly check list that can be used for upkeep and repairs. The benefits:

1. Eliminating or avoiding costly repairs or failures
2. Extending the life of home equipment, appliances and systems
3. Reducing safety and health risks in the home
4. Maximizing the home value and resale potential
5. Improve the home appearance and appeal
6. Shorten the “to do” list
7. Take pleasure and pride in the beauty of what has been created and maintained.
